CREATE WITH YOUR PEERS

Bring your classmates. Build the experience.

We’re inviting a proposed cohort of 10–30 senior students from different schools to help shape School Hunt and grow a longer-term Planet Infinity community.

What you can help create

Gather ideas with classmates, propose challenge categories and social moments, and give your school community a voice. Every participating school has a voice on approved choices.

What you can help connect

Introduce Planet Infinity to school contacts, bring senior-trip and prom leads, and suggest potential sponsor introductions. As you move to university, you can continue opening new community opportunities.

What happens after you apply

We review your application, have a conversation and agree responsibilities, time commitments, fair incentives and any required guardian or school permissions before joining. Applying does not guarantee selection or employment.

Tell us who you are

Your school and city, senior year, age, strengths, weekly availability and an experience you would love to create with your classmates. Add one song that feels like you if you want - it is a conversation starter, not a selection criterion.

A clear boundary

Game Control keeps the plot, clues, solutions, locations and finale confidential. Crew members do not collect payments, supervise trips or sign commitments on behalf of Planet Infinity.

Dahab is the proposed destination. The programme, dates, hotels, prices and awards are still in development. The crew name is temporary.
